
ITS LINES ADD VALUE

One of Turkey’s

leading companies in the field of architecture

ABOUT US

Belen and Partners, one of Turkey’s leading companies in the field of architecture, was founded in May 2012 by Özcan Belen and Partners in Ankara, as the continuation of Özcan Belen’s architectural practices Belen Projects, which was founded in 2000. Today Belen and Partners is not only one of the largest architectural offices of Turkey, but also has a recognized presence in the global scene along with its building sites in addition to Ankara office. Since its establishment, the studio has built an impressively wide range of works from urban masterplans, restitution-restoration projects to residential, cultural buildings, industrial facilities, shopping malls and sports centers. Belen and Partners develops innovative, yet efficient and economically viable design alternatives while considering the uniqueness of the “place” and the individuality of “requirements”.

Belen and Partners is highly regarded for its ability to reconcile the identity and rootedness of the context and the place within its cultural, historical and geographic conditions, with the inescapable demands of the contemporary world to succeed in delivering a compelling design as result. Well experienced in big scale national and international projects are adopted the cutting-edge computer programming to carry them out. The design is pursued till the smallest detail, comprehensively elaborated, solved and drawn. Belen and Partners renders services of projects and counseling in architecture, urban planning, and interior design, on national and international scales.

Searching for new efficiencies in terms of global and environmental needs and developments and respecting resources and existing values, the office aims high to benefit new technologies, envisioning the needs of people of our era of novelties and rapid changes.

Operating mainly in Turkey, with almost 40 technical staff, the office’s keen to design high-quality urban space that attracts both local and international users/visitors, through projects providing an immediate presence at its location as well as making a positive urban impact, targeting betterment, contemporary development, and content end-users.

GIA
DESIGN & BUILD

Location: NİĞDE

Project Name: Great Industry Area

Area: 29.000.000 m²

Year: 2024

GIA, envisioned as Turkey's largest industrial city, is more than just a production hub it is a forward-looking development model that brings the smart city vision of the future to life today. With its vast 29-million-square-meter production zone, integrated infrastructure, and strategic location, GIA sets a new benchmark for industrial and urban development.

GIA is not only transforming production — it is redefining the way we live. With capacity for **400** factories and a target of **60,000** direct jobs, it drives economic growth while establishing the urban model of the future through university-integrated training centers, residential zones for **50,000** people, rich social amenities, and an environmentally conscious approach to urban planning. Its dry port, streamlined customs processes, intermodal transport infrastructure, and strategic energy corridors elevate Turkey's industrial and logistics vision to an entirely new level. At GIA, it's not just about manufacturing — industry is redefined, and development is reimagined.

Strategically located at the crossroads of Konya, Ankara, Aksaray, and the Mersin–Adana corridor, GIA offers a fully integrated production and living ecosystem at the intersection of road, air, rail, and sea transport routes — directly connected to global logistics networks.

With its location advantage, access to 6th Region investment incentives, state-of-the-art infrastructure, and centralized management system, GIA provides both local and international investors with a highly efficient, sustainable, and competitive environment.

SERAPINAR DESIGN & BUILD

Location: ANKARA

Project Name: Serapınar Thermal Living & Entertainment Center

Area: 3.000.000 m²

Year: 2025

Serapınar Thermal Living & Entertainment Center, one of the largest developments in Turkey and among the most prominent in Europe, is rising in Kahramankazan, Ankara. Spanning over 1,000 acres, it offers year-round thermal experiences and a wide range of amenities in a uniquely integrated lifestyle destination.

Serapınar is divided into six main zones: Nazumya Thermal Tourism District, Fun Valley, Convention and Timeshare Hotels, Healthcare Campus, and exclusive VVIP facilities.
Designed with privacy in mind for both women and men, the project features the PalmVia indoor boulevard offering year-round resort comfort, tropical sand beaches, aroma therapy pools, wellness centers, and a rich gastronomy scene — making Serapınar the new destination for health, serenity, and leisure.

At Serapınar, people of all ages - from children to seniors - can enjoy a wide array of purposefully designed activity zones. Music and art workshops, equestrian trails, the iconic Fairy Tale Castle, bowling center, trampoline park, mini zoo, and zipline adventure areas are just a few of the many attractions available.

With its grand convention hotel, hydroponic greenhouses, local marketplace, VVIP accommodations, and health campuses, Serapınar is more than a holiday destination - it is a year- round lifestyle experience. Serapınar unites wellness, luxury, entertainment, and nature in a single, all-encompassing town.

TAI ANKARA LODGIGNS

Location: ANKARA

Project Name: TAI Ankara Lodgigns

Area: 400.000 m²

Year: 2022

The new TUSAŞ residential district in Kahramankazan is designed as a modern neighborhood comprising 1,500 housing units on a 400-decare site, located southeast of the existing housing area. At the heart of the project lies a green corridor that integrates vehicular, pedestrian, and bicycle routes, forming a multifunctional transportation spine surrounded by key community facilities such as retail units, a mosque, health clinic, school, library, and sports facilities — all designed to foster vibrant social life.

All social amenities are placed within walking distance, promoting community interaction and reinforcing a strong neighborhood spirit.Residential blocks are organized around shared courtyards, children's playgrounds, and landscaped areas, carefully designed to revive neighborly relations and encourage a sense of belonging.More than just a residential development, the neighborhood supports everyday life through on-site amenities for shopping, socializing, education, healthcare, and recreation. Linked to the existing housing area by a pedestrian spine running through a central amenities zone, this new settlement stands out as a model of contemporary and integrated urban living in Kahramankazan.

KAHRAMANKAZAN URBAN TRANSFORMATION

Location: ANKARA

Project Name: Kahramankazan Urban Transformation

Area: 523.000 m²

Year: 2020

On an area of 322,000 m², it offers a holistic life with housing, trade, social facilities, sports and green areas. A modern and sustainable urban life is targeted with 67,000 m² of trade, 92,000 m² of housing + trade, 19,000 m² of housing, 82,000 m² of parks, 22,000 m² of sports and 40,000 m² of social reinforcement areas.

KAHRAMANKAZAN TOWN CENTER

Location: ANKARA

Project Name: Kahramankazan Town Center

Area: 412.175 m^2

Year: 2020

Designed on a 4,460 m^2 area, Kahramankazan City Square creates a center point to be used in 4 seasons with its dry pool, cafeteria with an area of 1,340 m^2 and urban facilities.
